Igniting Learning Journeys
啓育學習旅程

Welcome to the May edition, the last edition of this school year, of the CDC newsletter!

Summer holiday is just around the corner! We understand it can be overwhelming to fill your child's timetable, so we have got just what you need here - **Summer Programmes** where your little one can explore and improve various aspects, such as speech and language, motor and social skills, attention and sensory. If your child is going to Primary One in the coming new school year, we also have a school readiness programme to better prepare your child for the new environment ahead!

All programmes are available NOW! Explore them in details here and sign up in time.

In the news section, we present two educational workshops for children and parents! Music Workshop with Soundness Studio is now available till the end of July. Let your child explore the beauty of music with a registered music therapist. The workshop is suitable for all children regardless of additional needs. Please click here to enrol! Co-hosting with Special Needs Network Hong Kong (SNNHK), the other workshop is "Building Resilience in Children" for parents to join a panel discussion on the topic and learn practical tips on social skills and making friends. Register for the event here now!

Last but not least, remember to scroll down further to read our latest SEN Tips to learn how you can better support your child's speech development and emotional regulation at home. Also, be sure to check out the upcoming SEN-related events at the end of this issue.

Wishing you and your family a great summer ahead. See you next year!

Best Regards,
Team CDC

In the News

CDC x Soundness Studio - Music Workshop (From now till 28 July)

Taught by a registered Music Therapist, the workshop will give your child hands on experience with music instruments, allowing him/her to learn key musical concepts and explore social interactions through enjoyable activities. Sign up now!

SNNHK x CDC - Building Resilience in Children (13 June)

We are pleased to announce a hybrid event (online and in-person) with SNNHK on building resilience in children, with a focus on preschool and primary school age children (age 0-11) including those with additional needs. Save your seat now!

SEN Tips

5 Ways to Improve Emotional Regulation

Children who can regulate their emotions well are able to use different strategies to manage their emotions and thus are less likely to engage in negative behaviours. Click to read the 5 tips to help your child better regulate their emotions!

The Power of Repetition - Verbal Routines

Verbal routines are when the same words are repeatedly used in a predictable way in the same or similar activities. Read the article to find out the reasons why they are so helpful in supporting your child's speech and language development!

Upcoming Events

- 3 Jun 2023 - Daddy Daughter Ball 2023
- 13 June 2023 - SNN and CDC Present: Building Resilience in Children
- From now till 28 Jul 2023 - CDC x Soundness Studio - Music Workshop
