Igniting Learning Journeys
啓育學習旅程

If you will spend part or all of Summer 2024 in Hong Kong, you will be pleased to know that all of our programmes are running throughout the year and newcomers can join at any time. During the coming summer months, we have several options for your consideration in addition to our usual programmes.

1. **"Summer Trial: Book 4 sessions, get 1 extra free!"** When you enrol in 4 paid sessions of a programme between July and September 2024, inclusive, you will get a free trial session in one of our group programmes (based on your child's needs and our therapists' recommendation). Limited places only, so act soon!

2. Your child may also join one or up to seven weeks of our weekly "**3-day Summer Camps**" from July to August. Siblings are welcome to enrol. Each week will feature a different theme and the three 2-hour sessions per week with maximum 6 children will be filled with storytime, shared play, sensory or arts & crafts activities, music-and-movement and more, all adjusted to individual ability levels and led by our experienced multi-disciplinary team staff (e.g., Occupational Therapists, Speech Therapists and SEN Educators). Click here for more detailed information.

3. Summer can also be a good time to get the **Psycho-Educational Assessment** done which you might have been thinking about for a while. They can be requested by a school or simply based on a concern from a parent and are conducted by any of our registered clinical or educational psychologists (the latter are EDB approved which is a vital consideration when dealing with local schools). Click here for more detailed information

On the all-year round group programme side, we recently launched our new inclusive **Sensory Play Group**, welcoming children aged 2 ½ to 4 years, regardless if they are developing typically or not, together with a caregiver (click here for more details). This inclusive group focuses on targeted exposure to sensory experiences which will help any young child's all-round development.

We are also ready for another round of **Lego Club** as soon as we have a group of 2 to 3 children signed up. This Club provides a structured social skills programme for primary-school aged children on Saturdays. (click here for more details)

All the above programmes will run at our centre in Fortress Hill. Easy access for prams and wheelchairs is provided from street level to centre premises, and tea and coffee as well as work station facilities are available for waiting parents/ caregivers while waiting children are usually enthralled by our pretend play and STEM wall corner (see photo above).
Have a great summer! Come and join the CDC during Summer 2024!

Best Regards,
Team CDC
