Our New CDC Social Story

Going Back to the CDC

We hope you and your family are safe and healthy at this current time. The last few months have been a challenging and testing time for us all as we moved into a COVID-19 era, with online teaching and learning, work-from-home etc. Whilst we have had a few closures following Chinese New Year, we have been continually working hard to adapt and develop our services to suit the current situation and the needs of all our CDC families and supporters.

When we marked the end of the 2019/20 academic school year on 29 July, we were already looking forward to and rigorously planning ahead for the new academic year starting in mid-August. With the unpredictable and ever changing COVID-19 situation in Hong Kong, we can't be sure of when children can safely return to what we thought of as 'normal' and full group programmes in the classrooms. In order to help prepare parents and children for when they can safely return to the CDC, we have created a **social story** - '[Going Back to the CDC](#)'. Check it out and let us know what you think of our new social story!

In addition, below are a couple of new 'SEN Tips', relevant to the home environment that you can do with your child. We've also listed a few CDC events in the 'Upcoming Events' section.

Stay safe and healthy!
