

Igniting Learning Journeys
啟育學習旅程

Dear Friend of CDC,

Welcome back! It's our first newsletter since the start of the new academic year. So much has happened!

This year we're bringing you some new and exciting content! We love celebrating the CDC children's successes and achievements. That's why we have a special feature, our second 'CDC stories' article about '[Enoch's Path to Primary School](#)'. In addition, we have a short video interview with Enoch's father, as he conveys a [message to his son](#).

Not only that, but we have a brand new video series for you, [Social Skills Learning Tips for Preschoolers](#). Every Thursday, we'll bring you a new video, which will tackle a different social situation, so be sure you have subscribed to our [YouTube channel](#). The series was created by our ABA/Psychology Team. If you want to know more about our [ABA](#) and [assessment](#) services, please approach any member of staff.

We also have some new 'SEN Tips' articles, expertly written by our teachers and therapists. Plus, some exciting events in the works, and a new course for parents starting next month! Scroll down for your dose of SEN tips and to catch up with what's on at the CDC!

Team CDC

In the News

Social Skills Learning Tips

We are excited to present our new video series, 'Social Skills Learning Tips for Preschoolers'. Watch the introduction now to find out what will be included in this series.

Monthly Classroom News

Are you curious about what your child is learning in their group at the CDC? Every month, we post our Classroom News under the 'News' section of the website. Check it out!

SEN Tips

Stay Active With Gross Motor Activities

Gross-motor skills enable us to move around our environment and engage in games and sport. Read more to learn what activities your child can do and what additional benefits these may have!

Hong Kong's Special Needs Trust

Recently the Government announced that they would be setting up a Special Needs Trust in Hong Kong. This is expected to be in place around October 2018. Learn more about the Trust here!

Handling Routines, Coping with Changes

Resistance to change is common amongst children with autism spectrum disorder. Find out what strategies you can use to assist your child in coping with change.
